

EXTRACTIVE CONSULTING

Affordable, effective and professional services that deliver technical evaluation, business support, specialist consultation, project and contract management for the extractive (mines & quarries), explosives and construction industries, as well as, regulatory and government authorities.

We tailor solutions to meet the needs of our client's business – such as:

- ▼ Resource planning, development and management
- ▼ Community and local authority mediation
- ▼ Performance and process appraisal/evaluation
- ▼ Risk management assessment
- ▼ Strategic planning and business management training
- ▼ Team coaching and mentoring for success

We have a wealth of experience that is well suited to meet the specific requirements of both corporate and small business management.

CONTACT US NOW for a free initial evaluation of your requirements and a brief discussion about our consultancy or visit our web site at:
